

□ Metal Mask

We'd like 25 copies of this design, cut into 100 separate masks sized 27x27x0.1 mm

The critical dimensions are marked as these are where the mask will overlap with the anode to give an accurate device area.

Only layers named "Mask-edges" constitute the final mask. All other layers are there for guidance only.

Oxford CMP - DBG

DRAWN Rick Hamilton 11/07/2017	Replacable masks 0.1 mm thick steel	
CHECKED Name 1-1-97	Critical dimensions marked	
ENGINEER Name 1-1-97	SIZE A	DWG NUMBER OX17-07-A
APPROVED Name 1-1-97	REV -	SHEET 1 OF 1
SCALE 2 : 1
